

NOR 20

NOR 20 allows the communication between more Tiddy Touch or Pocket and the PC without any cable or constriction.

Thanks to this system the collected data can be transferred directly to the PC avoiding the use of cable, USB or any other connection.

TECHNICAL DATA

STRUCTURE

CPU ARM

MEMORY

1 Mbytes FLASH

RF DEVICE

2.4 GHz frequency band
FSK frequency hopping

ACTION RAY:

200 mt in open surface

PROTOCOL:

ASAC proprietary protocol
BareBon (access at unique point)
Peer to Peer

USB CONNECTION

connector "miniB" compatible USB 2.0

ELECTRIC CONNECTION

5-15V 500 mA DC

CONSUME:

WORKING CONDITIONS

temperature: 0°C / +35°C

Relative humidity: 5% – 95% no condensations
